

I strongly appose prohibiting XM Satellite Radio's excellent content including XM Instant Traffic & Weather. XM's content is a real pleasure to listen to and I ought to have the right to enjoy such content if I am willing to pay for it. I respectfully urge you to reject the NAB's petition 04-160 because it attempts to regulate content which ought not be regulated, prohibit content that should available from satellite radio sources, and violates the capitalistic and democratic principles on which this country is founded and on which your authority is based.
